

Ontwikkelperslag G1

Opgemaakt 2026-10-05 10:14 CEST uit het generatieregister en het evolutieregister. Status: survived

1. Selectie

Besluit vastgelegd in het evolutieregister (rij 5). Onderbouwing:

2. Populatie

toddler	rol	registratie	geërfd van (modules)
G1/t1001	population	backfilled	geen (oorsprong)
G1/t1002	population	backfilled	geen (oorsprong)
G1/t1003	population	backfilled	geen (oorsprong)

G1/t1005	population	backfilled	geen (oorsprong)

3. Overerving (generatiedata)

kind	ouder	sha256 oudergewichten
-	-	geen ouders: oorsprongsgeneratie

Elke geërfde ouder is bij de geboorte gecontroleerd tegen zijn eigen registratie; een afwijkende hash wordt door het register geweigerd.
